

Arunkumar S

Software Developer

Highly skilled and results-driven **Java Full Stack Developer** with over all project experience in designing, developing, and deploying scalable web applications. Proficient in both front-end and back-end technologies with strong knowledge of object-oriented programming. In the process apart from benefiting my employer, I also expect to learn for my overall development.

PROJECT EXPERIENCE

Project#1

E-Commerce Web Application

Project Description:

Built Using React.js, java Script, Tailwind CSS and HTML.E-Commerce Web Application that allows users to browse products, add them to a shopping cart, and place orders. The application supports both user and admin roles.

Project#2

Background Remover (Front End)

Project Description:

Built Using React.js, Tailwind CSS and Axios. Developed a Background Remover Tool that automatically detects and removes the background from an image, allowing users to download the foreground with transparency (PNG).

Project#3

Background Remover (Back End)

Project Description:

Built Using Spring boot, Feign Client and Clerk (JWT Auth). The software uses advanced image segmentation techniques and machine learning models to accurately separate the subject from the background.
